## **Jung cool-time Gold MXI**

Mix for the preparation of crusty rolls.

## **Jung cool-time Gold MXI**

The specialist that is particularly suitable for freezing and refrigerating. The convincing great stability during baking in all cold-processed types of bread, as well as in case of use later, guarantees good baking results at the store. Adding 1 – 2% offers additional certainty for cold-processed fine yeast dough and Danish pastries.

### **Addition**

3-4% based on the flour weight.
